

In your consideration of LPFM stations taking priority over current FM translator services, I would like to encourage you not to disrupt current programming here in Austin, TX from K-LOVE radio on freq 92.1, 106.3, and 91.3. K-LOVE provides a unique program that is family friendly and is a great service to my community. We appreciate it so much that we are financially supporting the station since they are a completely listener supported station. If K-LOVE were to be displaced by an LPFM broadcaster offering a different program style, we would be left with no family friendly station to replace it. The service provided by K-LOVE is in the public interest. Please consider this as you make your decisions.
